

Teachers and parents!

Look out for these signs

If a child:

- 👂 Frequently asks you to repeat
- 👂 Struggles with attention or school performance
- 👂 Complains of ear pain or has ear discharge
- 👂 Shows delayed speech and language development

This could indicate an ear or hearing problem

Adapted from @World Health Organization, PPC/NMH/NSO 2025.1.

Act early

Refer or take the child for an ear and hearing check without delay
